

THE COOLANT COMPANY

SPECIFICATION SHEET

SS/100 PLUS

SS/100 Plus is all-purpose Semi Synthetic emulsifiable oil concentrate. This premium quality soluble oil is recommended for wide range of Industrial sawing applications including aerospace materials, steels, aluminum and copper alloys.

SS/100 Plus will protect the machine tool and wear parts from rust by means of an effective corrosion inhibitor system that leaves a clean, light, lubricating residue on working parts. This emulsion concentrate is stable, white, nonfoaming emulsion that works well in both hard and soft water. This lubrication is specially formulated to provide long sump life in a centralized and independent systems.

SS/100 Plus contains a biocide to control anaerobic bacteria keeping systems free of objectionable odors.

Performance features:

- **Extended coolant life:** Our formula resists degradation, ensuring consistent performance and eliminating unpleasant odors over time.
- **Superior Corrosion Protection:** Specifically engineered to prevent rust, safeguarding both your machinery and workpieces.
- **Low Maintenance:** With reduced buildup, our coolant minimizes cleaning requirements, allowing you to focus more on production.
